

CLAIMS

What is claimed:

- 5 1. A multi-functional golf accessory comprising:
- (a) a base adapted to receive a detachable caddy device, and wherein said base further comprises external and internal storage means; and
 - (b) a caddy device adapted to be detachably mounted in said base, and wherein said caddy device further comprises a body adapted to receive a divot repair device, a
10 detachable clip, at least one golf tee, and at least one of a golf ball and a stroke counting device.
2. The golf accessory of claim 1, further comprising a stroke counting device, and wherein said stroke counting device is adapted to be mountable within said caddy device.
- 15 3. The golf accessory of claim 2, wherein said stroke counting device is substantially spherical in shape and of substantially the same dimensions as a golf ball.
4. The golf accessory of claim 2, wherein said stroke counting device utilizes at least one of
20 mechanical, electronic, and digital means for counting said strokes.
5. The golf accessory of claim 2, wherein said stroke counting device further comprises at least one of a clock, compass, and calculator.
- 25 6. The golf accessory of claim 1, wherein said base further comprises:
- (a) a front portion, and wherein said front portion further comprises:
 - (i) at least one cup formed in said front portion for storing at least one of a golf ball and a stroke counting device;
 - (ii) a plurality of apertures formed in said front portion for storing at least one golf
30 tee; and
 - (b) a rear portion joined to said front portion by hinge means, and wherein said rear portion further comprises:

- (i) a substantially smooth exterior surface for providing a writing surface;
- (ii) a first clip means for holding a score card on said writing surface;
- (iii) a second clip means for holding a golf pencil; and
- (iv) at least one storage compartment formed on the interior of said rear portion of said base.

7. The golf accessory of claim 1, wherein said base further comprises an attachment means for attaching said base to a golf bag or the like.

8. The golf accessory of claim 1, wherein said caddy device further includes a stencil for marking a golf ball or the like.

9. The golf accessory of claim 1, wherein said divot repair device further includes a top region and a bottom region, and wherein said top region further comprises an aperture passing partially through the material of said top region, and wherein said aperture is adapted to receive a removable golf ball marker.

10. A multi-functional accessory for golfers, comprising a caddy device adapted to be detachably mountable in a separate base, and wherein said caddy device further comprises a body adapted to receive a divot repair device, a detachable belt clip, at least one golf tee, and at least one of a golf ball and a stroke counting device.

11. The golf accessory of claim 10, further comprising a stroke counting device, and wherein said stroke counting device is adapted to be mountable within said caddy device.

12. The golf accessory of claim 11, wherein said outer surface of said stroke counting device is substantially spherical in shape and of substantially the same dimensions as a golf ball.

13. The golf accessory of claim 11 wherein said stroke counting device utilizes at least one of mechanical, electronic, and digital means for counting said strokes.

14. The golf accessory of claim 11, wherein said stroke counting device further comprises at least one of a clock, compass, and calculator.

15. The golf accessory of claim 11, wherein said stroke counting device further comprises at least one positioning knob for properly orienting said stroke counting device within said caddy device.

16. The golf accessory of claim 11, wherein said stroke counting device further comprises a visual display area, and wherein said display area is oriented to be clearly readable from above when said stroke counting device is mounted within said caddy device and said caddy device is clipped to the belt of a golfer.

17. The golf accessory of claim 10, wherein said caddy device further includes a stencil for marking a golf ball or the like.

18. The golf accessory of claim 10, wherein said divot repair device further includes a top region and a bottom region, and wherein said top region further comprises an aperture passing partially through the material of said top region and wherein said aperture is adapted to receive a removable golf ball marker.

19. The golf accessory of claim 18, wherein said ball marker is a coin, and wherein said coin is a dime.

20. A multi-functional accessory for golfers, comprising a stroke counting device adapted to be mountable in a separate caddy device, and wherein said stroke counting device further comprises a visual display area, and wherein said stroke counting device is substantially spherical in shape and of substantially the same dimensions as a golf ball and utilizes at least one of mechanical, electronic, and digital means for counting said strokes.
